

Stop Sinclair Broadcasting from airing a partisan anti-democratic feature that consists of lies and false testimony, whose purpose is to defeat a presidential candidate who served honorably in the United States military years ago, and to blame him for a war for which he was not responsible and to distort historical facts. This represents a violation of Mr. Kerry's right for response in kind and constitutes a violation of FCC rules against malicious partisan attacks posing as news in the public interest.

Sincerely,

Arlene Stone
